Instructor

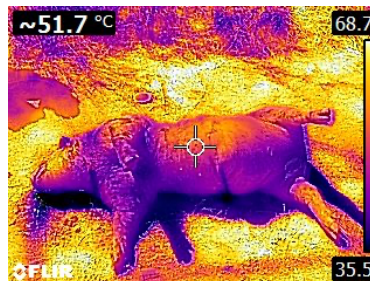

Dr. Lauren Weidner is an Assistant Professor in Forensic Science at Arizona State University. She obtained her BS in Forensic Science from John Jay College of Criminal Justice in 2010 followed by her PhD in Entomology from Rutgers University in 2016. Dr. Weidner is currently one of twenty board certified forensic entomologists in North America.

Lecture Topics

This training will cover the importance of insects in legal investigations. It will consist of a lecture, lab and field component to allow participants to gain hands on experience. Specifically, the topics to be covered will be:

1. Overview of entomology
2. How insects are used in legal investigations
3. How to properly collect, preserve, and send entomological specimens.
